

RED DYE

OIL SOLUBLE DYE

PRODUCT DESCRIPTION

Red Dye is a highly concentrated oil soluble dye for adding color to lubricating oils, transmission oils, hydraulic oils, and fuels. It is visible at concentrations of 1 part per 10,000.

PRODUCT BENEFITS

- Red Dye can be used to code oils to prevent mix-ups, or identify the source of an oil leak
- Visible at concentrations of 1 part per 10,000

DIRECTIONS FOR USE

Add 1 oz. (30 ml) Red Dye to 125 gallons (473 liters) of the oil to be identified.

TYPICAL PROPERTIES

Appearance	Thin, dark red fluid
Specific Gravity	0.99 g/ml
Flash Point (COC)	141°F (61°C)

PRODUCT NUMBER

8535000000
