

Conventional Green Coolant Concentrate

Conventional Antifreeze/Coolant

Specifications, Approvals & Recommendations

- ASTM D3306, D4985

For a full listing of equipment approvals and recommendations, please consult your local representative.

Typical Physical Characteristics

Properties		Method	Conventional Green Coolant Concentrate
Appearance			Fluorescent Green
Specific Gravity	60/60°F	ASTM D1122	1.130
Freezing Point 50 vol % q.s. Aqueous solution	°F	ASTM D1177	-34
Reserve Alkalinity	ml 0.1N HCL	ASTM D1121	12

These characteristics are typical of current production.

Health, Safety & Environment

- **Health and Safety**

This product is unlikely to present any significant health or safety hazard when properly used in the recommended application and good standards of personal hygiene are maintained.

Avoid contact with skin. Use impervious gloves with used oil. After skin contact, wash immediately with soap and water.

Guidance on Health and Safety is available on the appropriate Safety Data Sheet, which can be obtained from your local representative.

- **Protect the Environment**

Take used oil to an authorised collection point. Do not discharge into drains, soil or water.
