

SAFETY DATA SHEET

COYOTE CHEMICAL COMPANY

1111 N. Norbeck Street, Vermillion, SD 57069

1-800-658-3438

SECTION 1. Identification of the Product and of the Company

Product Name: Cement Remover Concentrate

UN/ID Number: N/A

Recommended Use: Cement, lime and scale remover

Restrictions on Use: Use only as directed on label

Date of Issue: 5/14/15

Emergency Telephone Numbers

PERS: 800-633-8253

SECTION 2. Hazards Identification

EMERGENCY OVERVIEW

* Hazard Determination System (HDS): Health, Flammability, Reactivity

2

0

0

Hazard Category /GHS - Classification

Signal Word: DANGER!

May be Corrosive to Metals

Acute Toxicity

Serious Eye Damage

Category 1

Category 4

Category 1

Hazard Pictograms:

Hazard Statements:

Harmful if swallowed

Causes severe eye damage

May be corrosive to metals

Precautionary Statements - Prevention:

Wash face, hands and any exposed skin thoroughly after handling

Do not eat, drink or smoke when using this product

Do not breathe dust/fumes/vapor/mist/spray

Contaminated clothing should be washed

Wear protective clothes, clothing, and eye protection

Precautionary Statements - Response:

IF ON SKIN: Gently wash with plenty of soap and water. Immediately remove contaminated clothing.

seek medical attention if irritation persist.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting

IF INHALED: Remove victim to fresh air. If trouble breathing persists seek medical attention

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persist: seek medical attention.

Precautionary Statements - Storage: Keep out of reach of children in a safe location. Keep container closed.

Precautionary Statements - Disposal: Dispose of contents and container according to state/local/ federal disposal regulations.

Hazards not otherwise classified (HNOC): This product can cause burns and irritation which may not be immediately painful.

SECTION 3. Composition/Information on Ingredients

NAME OF INGREDIENT	CAS NUMBER	% BY WEIGHT
Urea Monohydrochloride	506-89-8	less than 50%
Proprietary Ingredient	Mixture	6%

If chemical name/CAS No. is "proprietary" and/or weight is listed as a range, the specific chemical identity and/or percentage has been withheld as a trade secret.

SECTION 4. First Aid Measures

First aid measures for different routes of exposure

Eye Contact: Immediately flush eyes with plenty of water. Remove contact lenses if possible. Seek medical attention.

Skin Contact: Immediate response is required. Immediately wash affected area with plenty of water and remove all contaminated clothing. If irritation persist seek medical attention.

Inhalation: Move to fresh air and call a physician. Physician may treat victim with artificial oxygen. In case of inhalation of decomposition products in a fire, symptoms maybe delayed.

Ingestion: If swallowed immediate response is required. Do not induce vomiting. Never give anything by mouth to an unconscious person. Drink several glasses of water. Seek medical attention.

Most important symptoms/effects, acute and delayed: . In case of inhalation of decomposition products in a fire, symptoms maybe delayed.

Notes to Physicians: Treat symptomatically.

SECTION 5. Fire Fighting Measures

Suitable extinguishing media: Dry chemical, CO₂, alcohol-resistant foam.

Unsuitable Extinguishing media: Not determined

Special Hazard: During fire hazardous gasses may form.

Special protective equipment for fire-fighters: As in any fire, wear self-contained breathing apparatus pressure demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

Specific hazards arising from the chemical: At temperatures above 600 C/ 1400 F acid action on most metals may release hydrogen, a highly flammable and explosive gas.

PAGE 2

SECTION 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal precautions: Use proper protective equipment. Avoid contact with skin, eyes, clothing.

Advice for emergency responders: Use personal protective equipment as required.

Methods and materials for containment and cleaning up

Methods for containment: Absorb with earth, sand or other non combustible material and transfer to containers for later disposal.

Methods for cleaning up: Contain spillage, and then collect with noncombustible absorbent material (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

SECTION 7. Handling and Storage

Precautions for safe handling

Advice on safe handling: Use personal protective equipment as required. Keep container closed when not in use. Ensure all labels remain in good condition and adhered to the container. Keep out of reach of children

Conditions for safe storage, including incompatibilities

Storage Conditions: Keep containers tightly closed in a dry, cool and well ventilated place.

Incompatible products: Oxidizing agents / reducing agents. Sulfides, sulfites.

SECTION 8. Exposure Control / Personal Protection

Exposure Guidelines

Chemical	ACGIH TLV	OSHA PEL	NIOSH IDLH
There are no Occupational Exposure Limits for this mixture.			
Proprietary Ingredient	No Exposure Limits	No Exposure Limits	No Exposure Limits

Appropriate engineering controls: Ensure adequate ventilation. Eye wash station and shower.

Personal Protective Equipment

Eye protection: Use appropriate eye protection goggles or face shield when handling material.

Hand protection: Chemical protective gloves.

Skin protection: Chemical resistant gloves, wear proper clothing.

Respiratory Protection: No special protective equipment required with adequate ventilation.

SECTION 9. Physical and Chemical Properties

Appearance

Physical state: Liquid

Form: Liquid

Color: Amber

Odor: fruit

Odor threshold: Not Available

PH: 7 -1.5

Melting point/freeze point: No information available

Flash Point: Not applicable

Evaporation rate: No information available

Flammability (solid, gas):Not available

Upper/lower flammability or explosive limits

Flammability limit - lower %: Not available

Flammability limit - Upper %: Not applicable

Explosive limit- lower %: Not available

Explosive limit- upper %: Not available

Vapor pressure: Not determined or unknown

Relative density: 1.21

Water solubility: Easily soluble in water

Auto ignition temperature: Not available

Decomposition temperature: Not available

Specific gravity: 1.04

SECTION 10. Stability and Reactivity

Reactivity: The product is stable and non reactive under normal conditions of use, storage and transport.

Chemical stability: Material is stable under normal conditions.

Possibility of hazardous reactions: Contact with incompatible materials

Conditions to avoid: Contact with incompatible materials.

Incompatible materials: Reactive or incompatible with the following materials: oxidizing materials, chlorates and nitrates. Contact with chlorine bleach, sulfides or cyanides will liberate toxic gasses. Contact with alkaline materials (e.g. Aqua Ammonia) will generate heat.

Hazardous decomposition products: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11. Toxicological information

Chemical	LD 50 Oral	LD 50 Dermal	LC Inhalation
Urea Monohydrochloride	1120.9 mg/kg (rat)	Not determined	Not determined
Proprietary Ingredient	Not determined	Not determined	Not determined

Information on likely routes of exposure

Ingestion: Harmful if swallowed. Corrosive to esophagus, mucous membrane and stomach.

Inhalation: Avoid breathing vapors or mist.

Skin contact: Causes burns, redness, irritation and itching which may not be immediate.

Eye contact: Direct contact to eyes causes serious eye damage, redness, watering and blurry vision.

Information on Physical, Chemical and Toxicological Effects

Symptoms Please see section 4 of this SDS for symptoms

Delayed and Immediate Effects as well as Chronic Effects from Short and Long-term Exposure

Carcinogenicity The materials in this product are not known to be carcinogenic.

<u>Chemical Name</u>	<u>ACGIH</u>	<u>IARC</u>	<u>NTP</u>	<u>OSHA</u>
Urea Monohydrochloride	No	No	No	No
Proprietary Ingredient	No	No	No	No

ACGIH (American Conference of Governmental Industrial Hygienists)

No

IARC (International Agency for Research on Cancer)

No

OSHA Occupational Safety and Health Administration of the US Department of Labor

No

NTP (National Toxicology Program)

No

STOT - Single Exposure None known

STOT - Repeated Exposure None known

Numerical Measures of Toxicity None Known

SECTION 12. Ecological Information

Eco toxicity

Chemical	Toxicity to Fish	Toxicity to Algae	Toxicity to Invertebrates
Urea Monohydrochloride			
Propriety Ingredient	Not determined		Not determined

Persistence and degradability: No data available

Bio accumulative potential: No data available.

Mobility in soil: No data available.

Other adverse effects: No other adverse environmental effects are expected from this product.

SECTION 13. Disposal Considerations

Waste treatment

Disposal Instructions: Dispose of contents in accordance with local/regional/national/international regulations.

Waste from residues / unused products: Disposal should be in accordance with applicable regional, national and local laws and regulations.

Contaminated packaging: Disposal should be in accordance with applicable regional, national and local laws and regulations.

US EPA Waste Number

Chemical Name	RCRA	RCRA-	RCRA-	RCRA-
N/A		Basis for Listing	D Series Waste	U Series Wastes

California Hazardous Waste Status

Chemical Name	California Hazardous Waste Status
N/A	

SECTION 14. Transportation Information

DOT **Proper Name:** Not Regulated
Hazard Class:
UN Number:
Packing Group:
Additional Information: Exempt under DOT 49 CFR 173.154 (d). This material is corrosive only to aluminum only. Not corrosive to mild steel and skin.

IATA **Proper Name:** Corrosive Liquid N.O.S. (urea monohydrochloride)
Hazard Class: 8
UN Number: UN 1760
Packing Group: II
Additional Information: This material is corrosive to aluminum only. Not corrosive to mild steel or skin.

IMDG **Proper Name:** Corrosive Liquid N.O.S. (urea monohydrochloride)
Hazard Class: 8
UN Number: UN 1760
Packing Group: II
Additional Information: This material is corrosive to aluminum only. Not corrosive to mild steel or skin.

SECTION 15. Regulatory Information

International Inventories: Not determined

US Federal Regulations**SARA 313**

Chemical Name	CAS NUMBER	% BY WEIGHT	SARA 313- Threshold Value%
Not Listed			

CWA (Clean Water Act)

Chemical Name	CAS NUMBER	CWA - Reportable Quantities	CWA - Hazardous Substances
Not Listed			

CERCLA

Chemical Name	Hazardous Substances RQ	CERCLA/SARA RQ	Reportable Quantity (RQ)
Not Listed			

US Regulations

Chemical Name	California Proposition 65
Not listed	

US State Right -to-Know Regulations

Chemical Name	New Jersey	Massachusetts	Pennsylvania
Not Listed			

SECTION 16. Other Information

Issue Date: 05-14-15

Revision Date: None

Version: #1

NFPA rating

**Disclaimer:**

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of this publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
